Sici-1 parchesed of you hast Spaing, eight bariels of Bandley's Patent Super Phospitate and applied it to the cultivation of potatoes, on 542 acres of add were out land with no other receiving. The result was two limited and usual refine to, bong trilly boiled the quantity produced an equal amount of newer land without Phospate, and the quality was doubtly better, be glarger, smoother, and worth in least fifteen awardy cents per bushed mare then where no morbidals was test.

Proceedings was used.

In answer to your impairy whether Prinsphate pays, I can say I raised 4750 bushels of potatoes this year to sade, and can realize 75 reals pushel to taken at Augusta, egget mass from my fariat. I am condition I raised in least free limited bushess more for using stary dollars, worth of Phesy hate, and the quanty was very much letter. I intend to use it teast 2 1-2 tons next year. Mr. BigADLEY.

Dear Socie—Your Super Phosphare of 1867 has given general sadshariton in my beightoriheod. Thave used in tho last ten years more than twelve hundred dollars worth of the dateron twelve hundred dollars worth of the dateron. ternizers, Coalectie, Gueno, Blood Mauure, Bore in 65 of decent forms, and note of these compare with yours in their Leying benefits. I have two pieces of mowing ground where nothgeties has been applied as a top dressing for many years, tid the cops of grass, (for I take all wisevery year,) wee good, much better than ould have been expected. Traised as tine stop

Very aste or an expected. I taised as time storp on an old plain that had had no manufer for forty years, to not certain knowledge, with 300 lbs. of your Phospha con the area, one-had in the ladding or one-had in the ladding of the properties of the invention of a paint of France and Gardener (J.
